

## Partnerships

Nutrisystem is proud to partner with many of the leading voices in scientific research, and patient & healthcare professional education in the areas of diabetes & obesity.

a national strategic partner of  **American Diabetes Association®** Nutrisystem was named a National Strategic Partner of the American Diabetes Association in recognition of its commitment to support the mission and the Association's movement to Stop Diabetes®. Nutrisystem D meets the nutritional guidelines of the American Diabetes Association and is available at a discount to ADA members.

Nutrisystem has been committed to the American Diabetes Association's mission at the national and regional level for a number of years. Nutrisystem and its employees have been leading supporters of *StepOut: Walk to Stop Diabetes*, a fun family walk designed to raise awareness and help fund research, information and advocacy efforts of the Association. Nutrisystem has also supported the Association's efforts to raise awareness around American Diabetes Association Alert Day® and the Working Together to Stop Diabetes® movement, and has undertaken its own activities aimed at spreading the word about the benefits of losing weight in helping to prevent or manage type 2 diabetes.  **American Association of Diabetes Educators** Nutrisystem is a member of the Industry Allies Council of the American Association of Diabetes Educators and shares the AADE's mission to promote healthy living through self-management of diabetes and related chronic conditions. Founded in 1973, the AADE is the leading association for diabetes educators with more than 13,400 members. Nutrisystem D has exhibited at the AADE's annual meetings since 2010, and this year will also conduct a product theater at the conference. [American Association of Diabetes Educators](#)

**GLUCOFIT** In October 2011, Nutrisystem and GlucoFitClub, a leading provider of exercise, fitness and electronic health monitoring services located within participating YMCAs, announced the launch of the NutriFitProgram™, an effective and integrated program for people to achieve their weight and fitness goals. Participation in this program can help people avoid the health complications associated with excess weight, an improper diet and lack of regular exercise. In addition, the program is specifically intended to help people with diabetes better manage the disease, as well as help to prevent the onset of type 2 diabetes for those with prediabetes. The GlucoFitClub is a division of Gluco Fitness Center LLC, a leader in health and wellness strategies and personalized health monitoring that help people lead healthier and more productive lives. Nutrisystem is a corporate partner of The American Academy of Family Physicians (AAFP) Foundation. Established in 1958, the AAFP Foundation was created to support research on the economic aspects of general practice. The philanthropic arm of the AAFP, the Foundation, advances the values of Family Medicine by promoting humanitarian, educational and scientific initiatives that improve the health of all people.
